Phone: 805-966-2131

Fax: 805-965-8370

About the Rock Art Paintings

The vast dreamscapes of **Robles' Rock Art Series** are inspired by his many journeys to the prehistoric sites of Native American rock paintings (pictographs) and carvings (petroglyphs) throughout the American Southwest. His powerfully primitive and boldly colorful images are both a revelation and a celebration of his Chumash Indian ancestry. Brilliantly colorful images of animals, human forms and geometric shapes dance across his canvases and, like an ancient intuitive language, invite the viewer into the magical world of primitive animism, where everything is interconnected and alive with its own spirit.
